Supervisor Paul Biane Announces Construction of Playground

Second District Supervisor Paul Biane announced the award of a \$40,000 contract for the installation of new and safer playground equipment for Cedar Pines Park in the San Bernardino Mountains. The San Bernardino County Board of Supervisors approved a contract on March 23, 2004, with Dave Bang Associates for the installation of climbers, slides, swings, playground surfacing, curbing, ramps and other enhancements to the park.

In making the announcement Supervisor Biane said, "The current playground equipment was in desperate need of replacement. The new equipment will add a higher degree of safety for our children while increasing their enjoyment during their park visits."

This popular community park is located just west of Crestline and beautiful

Lake Gregory and is maintained and operated by County Service Area 18 (CSA 18). CSA 18 was created to provide facilities and services within the region including park and recreational facilities, community centers, the paving and maintenance of roads and snow removal.

Funds for this project were generated locally and drawn from revenue resulting from Proposition 12, which was approved by California voters in 2000. The new playground equipment in Cedar Pines Park is one of several park improvement projects in the mountain communities planned by Supervisor Biane.
